

WPU4 Bilingual geography

GEOGRAPHY ROCKS!

We are going to focus on mostly English-speaking regions that we hardly have time to deal with in geography in depth. We will be travelling to the remote and cold corners of Canada where we will have a date with grizzly bears, the tundra and the Inuit and their typical lifestyle. We will be travelling to the hot deserts and the blue mountains of Australia where we will have a date with Aboriginal people, poisonous animals and urban Australians. We will be travelling to New Zealand where we will have a date with the Maori and a very European-like lifestyle. We will be travelling to the distant continent of Antarctica where we will meet the world's end.

If you want to go on that journey, vote for it.

- Wer Interesse hat, Geographie mal ganz anders zu erleben, ist hier genau richtig:
- Lerne interessante Regionen der Welt und spannende Menschen darin kennen!!
- Entdecke, dass du diese Regionen, in denen Englisch gesprochen wird, noch viel intensiver und lebendiger kennen lernen kannst, wenn du die Sprache selbst verwendest!
- Damit bist du nicht nur thematisch, sondern auch sprachlich bestens vorbereitet auf ein vielleicht geplantes Auslandsjahr dort!
